Mr. Kintop stated the next part of this plan will be "Where we want to be and how do we get there".

Item #4 – Review of Strategic Plan by committees.

- Goal 1- Best Practices in Record Keeping

To create partnerships with constituent organizations and with other agencies in both public and private sectors, to develop a sense of shared responsibility for records and to foster the highest possible standards for their care.

- Goal 2– Best Practices in Electronic Record Keeping

Facilitate identification of description, protection, preservation, migration, and improved access to electronic records scheduled as permanent.

Mr. Kintop reported that the Nevada Electronic Records Steering Committee (NERC) formed an electronic format standards sub-committee, which is looking at acceptable formats for archival long term storage. He said the SHRAB needs to make a strong endorsement for a Digital Archives.

- Goal 3- Nevada's people and governments will share responsibility to preserve and make our unique documentary heritage available.

The SHRAB will work to insure that the Nevada's documentary heritage continues to be collected, appreciated, and made as widely available as possible. They will foster an awareness that all Nevada residents are responsible for and benefit from the preservation of Nevada's Documentary Heritage.

Ms. Sundstrand provided a draft for the board members. She said the major change in objectives was to move the SHRAB grant/regrant to the last objective 3.4: Improvement of

access to records statewide by encouraging the creation of traditional finding aids and directories, as well as through the wider use of standard online descriptions. Encourage access to full texts of records through CD-ROM, and other traditional and on-line forms of publishing.

- Goal 4- Protecting Nevada's Documentary Heritage.

The board will foster and support programs to protect Nevada's shared documentary heritage from disasters, deterioration, and neglect.

Ms. Jones said for this goal, they would need people who care enough to support us. Mr. Rocha pointed out that at this time they don't have anyone who is moving their agenda. He said they needed to identify powerful people in both the private section as well as politically. He said these people can make things happen.

Ms. Jones said she would like to see more language that would get more people to care about Nevada and its history, how to get more champions and the cultural caucus.

Mr. Kintop pointed out that in six years (2011), Nevada will begin a cycle of its 150th anniversary of Nevada Territory/Nevada Statehood. He said it the board should recommend the creation of a 150th Anniversary Commission to raise money to recognize the event, celebrate the anniversary and do certain things to preserve Nevada's history.

Mr. Kintop stated they would need one more final draft of the new Strategic Plan. He thought a conference call would work for getting a final approval from the board. He asked the board members to have all their comments to him before the next meeting in February.

Ms. Jones told the board that she had been instructed to give a memo regarding the interpretation of a financial disclosure to all her boards and counsels.

It was agreed by the board to make the next meeting a two day meeting on Tuesday January
